

Healthcare Almanac

Healthcare Almanac provides complete financial and analytical information of healthcare providers based on the CMS Medicare Cost Reports. The healthcare providers are Hospitals, SNFs, HHAs, ESRD and Hospice. The information spans 12 years. The information is available through a combination of a website and a desktop application. The website and desktop application work together to provide a complete CMS Cost Report solution.

Healthcare Almanac Website

The HA Website can be installed into your own website (via a landing page). You can use the website in your own web pages. Your clients can access the information. If your client is a hospital, you can show information about other hospitals. You can see KPI calculations with graphs. You can see a national ranking of their revenues and expenses compared to all other hospitals. The website format is well organized and easy to use. The pages can be easily printed. The pages can be exported to Excel spreadsheets. There are up to 12 years of financial and analytical history. The main page (landing page) can be branded with your business logo. Go to www.halmanac.com/demo to see a sample website. A detailed product description and agreement with pricing available at www.halmanac.com/hainfo. Special promotion pricing is available to early adopters.

Healthcare Almanac Desktop

The HA Desktop can be installed on your workstation or laptop. The installation is done via the internet. The databases tables are stored on the internet in the Microsoft Azure Cloud. An activation code is required to access the full database. The HA Desktop has detailed reference reports for 12 years of all CMS Medicare Cost Reports. You can see Cost Report worksheets for a hospital. You can see selected information for selected hospitals. You can see selected line item information for six current years of history. The HA Desktop has summaries of all the CMS Cost Reports. These summaries are used for the HA Website. You can print reports that are similar to all the information on the website. The reports can be printed and/or exported to Excel. Go to www.halmanac.com to see more information about the HA Desktop. All the sample reports on the website were created with HA Desktop. A detailed product description and agreement with pricing are available at www.halmanac.com/hainfo.

Thank you for your interest in Healthcare Almanac. This company is a small business with one product. We have developed the product ourselves and provide full product support. We can also provide custom programming services to create special reports or data formats. We look forward to providing you with the best CMS Medicare Cost Report solution that is available.
